THIS editorial article is devoted to introduce the readers and authors of ICSES Transactions on Neural and Fuzzy Computing (ITNFC) a new revolution in the editorial board and management team. After a year of inactivity, Prof. Huchang Liao was inaugurated as the Editor-in-Chief based on the suggestion of the ICSES steering committee for his outstanding career in the field; he can be introduced as follows:

Editor-in-Chief of ITNFC

Prof. Huchang Liao
Sichuan University, Chengdu, China
liaohuchang@scu.edu.cn

Prof. Huchang Liao is a Research Fellow at Business School, Sichuan University, China. He received his Ph.D. degree from Shanghai Jiao Tong University, Shanghai, China, in 2015. He has published 3 monographs, and more than 140 peer-reviewed papers, many in high-quality international journals including European Journal of Operational Research, Omega, IEEE Transactions on Fuzzy Systems, IEEE Transaction on Cybernetics, Information Sciences, Information Fusion, Knowledge-Based Systems, Fuzzy Sets and Systems, Expert Systems with Applications, International Journal of Production Economics, among others. He was ranked top 702 in the ESI top 1% of the world's 3354 most influential scientists in the field of Computer Science, and top 4926 in the ESI top 1% of the world's 8993 most influential scientists in the field of Engineering, in March 2019. He is the Senior Member of IEEE since 2017, and serves as the Editor-in-Chief, Associate Editor, Guest Editor or Editorial Board Member for more than 30 international journals, including Information Fusion (SCI, impact factor: 6.639), Technological and Economic Development of Economy (SSCI, impact factor: 3.244), Computers & Industrial Engineering (SCI, impact factor:

3.195), International Journal of Fuzzy Systems (SCI, impact factor: 2.396), Journal of Intelligent & Fuzzy Systems (SCI, impact factor: 1.426) and Mathematical Problems in Engineering (SCI, impact factor: 1.145).

We are optimistic about getting our first strategic milestones based on his guidance, and going toward our vision with an excellent mission. As the first action in agenda, we are pleased to announce our new editorial board and management team as follows:
